

# Radcliffe On Trent Nature Conservation Group Update

# Radcliffe On Trent Nature Conservation Group

As part of the Rushcliffe Community Tree planting scheme, 12 trees were planted at the Lilyponds last week. Many thanks to everyone who helped to plant them. The Nature Conservation Group are always looking for new volunteers to help with our conservation work around the Lily Ponds / Riverside and Dewberry Hill. Please contact the Parish Council for further information if you're interested.

Please see photos of the recently planted RBC trees (Alder and Aspen) near the rear pond. There is an Alder planted in front of two larger Aspens, which were also RBC trees put in around five years ago. See a newly planted Alder and Aspen above. Trees in the background include Oak and Silver Birch, planted by the Conservation Group about four years ago.
